Introduction

We at **Seeds and Deeds** are working towards cultivating ecological consciousness in young people.

Through our engaging programs and community projects we provide learning experiences to young minds using learning tools, **hands-on** activities, **experiments**, **reflective** journaling, discussions, DIYs, **simulations**, etc.

These programs help **cultivate 21st century life skills** like scientific temperament, critical thinking, problem solving, effective communication, active citizenship, empathy for fellow humans, compassion for all life forms and creativity in the learners.

To know more about our work visit www.seedsanddeeds.com

Hunar Tribe is working to create a cleaner and greener tomorrow!

We **upcycle** waste into **works of art** to create a sustainable future with empowering tribal youth.

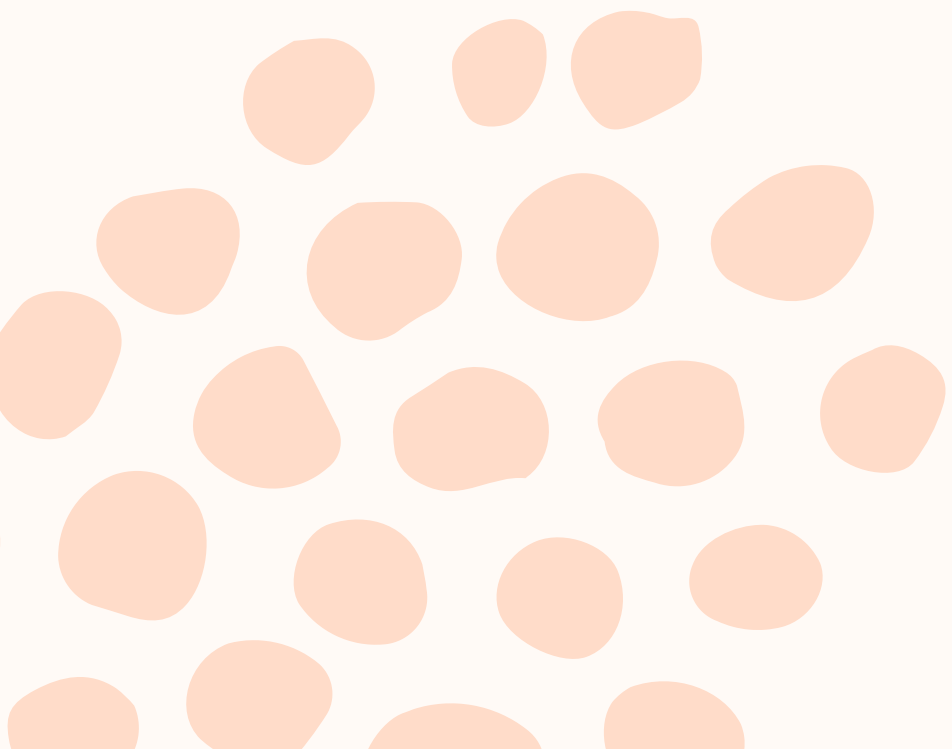

Along with that we **organise creative camps** for spreading knowledge and awareness through innovative and creative ways where the child can think out of the box and can develop their imagination power.

Our camps also focus on learning by doing which improvise their **holistic skills**.

Glimpses of Our Work

Facilitators conducting sessions on - how to conduct Research, DIYs, waste audits and understanding biodiversity

Facilitators conducting sessions on - understanding interconnectedness in nature, creating herbarium, permaculture and panchtatva exploration

Facilitators conducting sessions on - making craft out of waste, dance, painting, public speaking and music

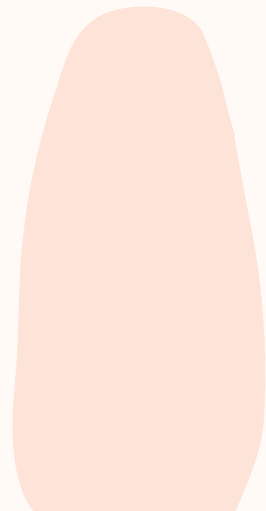

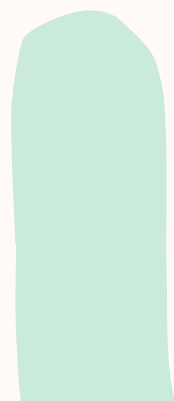

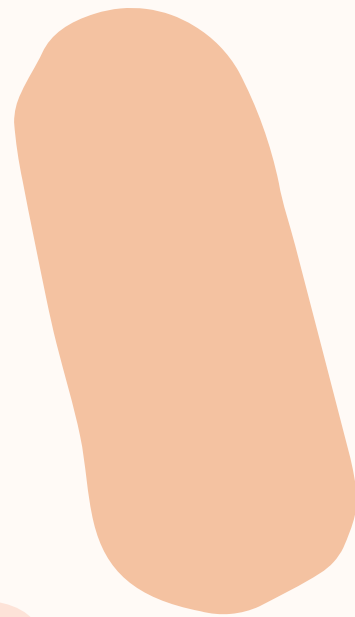

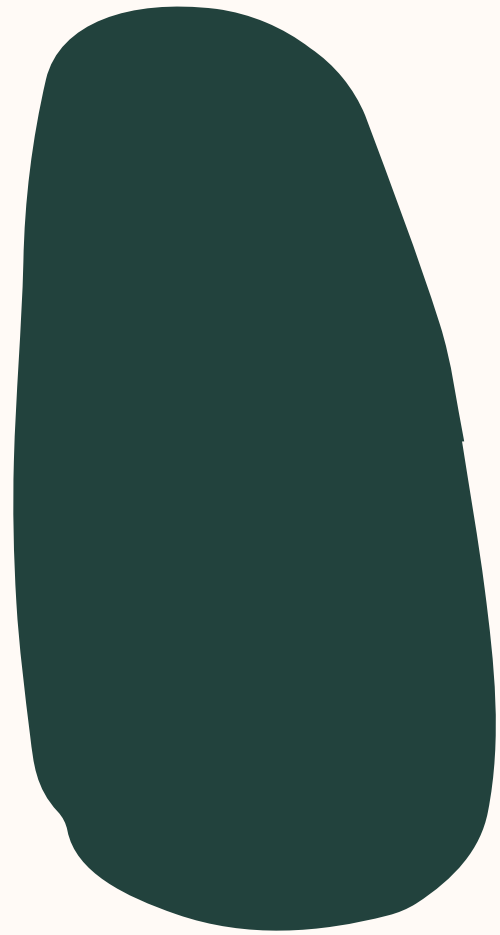

Facilitators conducting sessions on - dress designing, theatre, stage anchoring, upcycling products

Proposal:
Seeds and Deeds
+ Hunar Tribe
= Masti Ki Paathshala

WHAT?

Masti Ki Paathshala will be a **first of its kind** camp in **Bir, Himachal Pradesh** for the children from the local communities living in and around this area.

This camp will take place for 20 days from **June 27- July 15, 2023**, from 9:00 AM - 2:30 PM.

We are looking to engage with **70 learners** across ages **12-18 years** with activities conducted by **10 expert facilitators**.

This camp will enable learners to explore and experience various subjects through specially designed **curriculum catering to all kinds of learners**, especially the **kinesthetic ones**, because their learning needs are not catered to in the existing schooling system in this area.

INTENTIONS

This camp is specially for learners residing in villages in and around Bir-Billing : Bir, Chogan, Gunehar, Matroo, Kotli, Damehar, Lahad and Tibetan Colony.

This camp is much needed in the area for following reasons:

- **Lack of exposure** in schools on kinesthetic learning.
- **Lack of emphasis** on experimentation and hands-on learning.
- **Little or no attention** on creative forms of self expression and learning like music, dance, theater and art.
- **Disconnection** from local culture and tradition, nature and ecology and their own value systems.
- **Struggle** associated with **under-developed** life skills.

OUTCOME

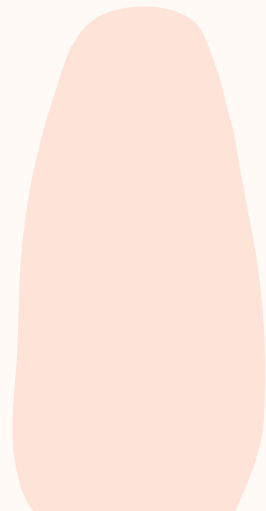

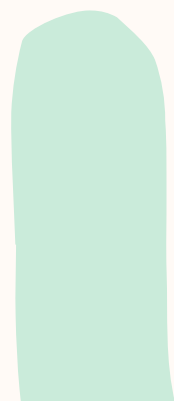

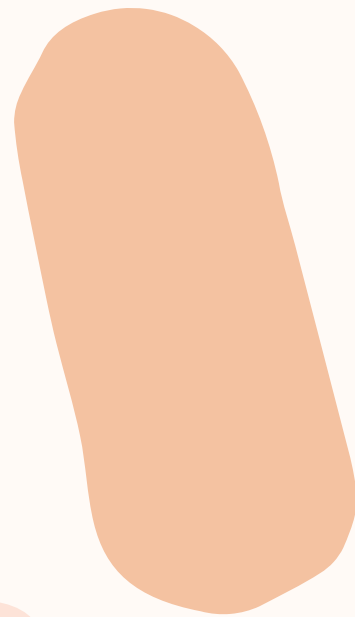

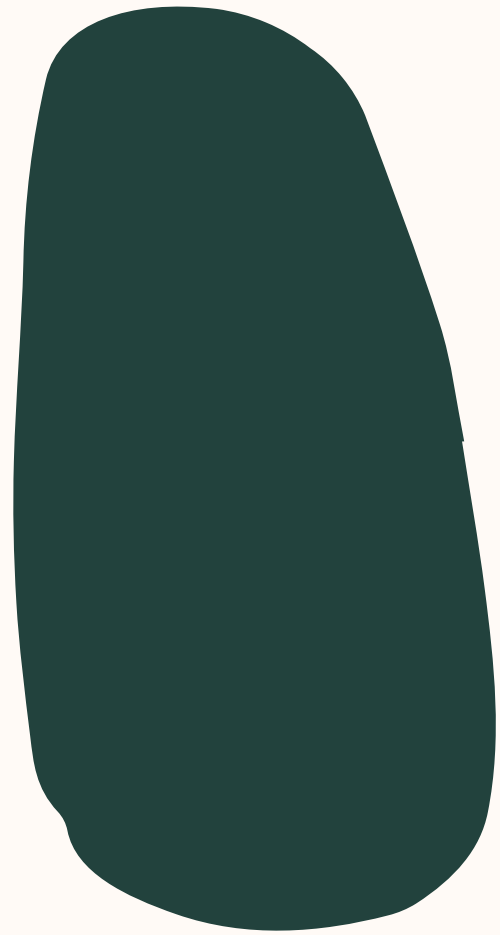

Our **hands-on curriculum** will encompass basic scientific experiments, mathematical thinking, out of the box art and craft, music, dance, theater workshops and life skills sessions, exposure of which is lacking in their lives at the moment.

Through this camp the learner will :

- Cultivate their **ecological intelligence**.
- Raise their **scientific and mathematical temperament**.
- Enhance their **life skills** like problem solving, leadership, effective communication, critical thinking, collaboration, creativity, self-confidence, social-emotional intelligence and self directed learning.
- Deepen the **values** of compassion, respect and dignity for all life forms, questioning, mindfulness and integrity.
- Apply their **learning into real life** situations.

We need your
support to Reinvent
Education in these
Himalayan Villages

INTENTIONS

We plan to raise funds through **crowdfunding, partnering with local authorities.**

We plan to charge a nominal fee between 500 - 1000 pp from the learners, depending upon their economic background.

However, **major expenditure** of the whole camp will be through **crowdfunding**. Since, this is a **first of its kind** event in this area so we are seeking external support. We look forward to exploring local support as much as possible for the future camps.

THE PROPOSED BUDGET

Masti Ki Paathshala Proposed Budget					
Heads	Sub-heads	Particulars	Unit Cost	Units	Expected Expenditure
Program Fees	Facilitators' fees	number of facilitators 10 for all the activities, upto 900/day based on the experience and level of expertise.	18,000	10	180,000

CALL TO ACTION

We are reaching out to you if you are someone, who:

- is looking to **invest in learning programs** for young members of the society,
- **believes** in the power of activity based learning
- is on the **mission of reimagining education** system
- promotes **creative forms** of self-expressions
- passionate about **ecological education**
- is imparting skill based and value based education
- wants to support a child who never had access to what you had

GRATITUDE

Seeds and Deeds and Hunar Tribe shall be **grateful** to the individuals, companies, collectives and organizations **contributing towards this camp.**

We are happy to share with you the event details, updates and post event report.

We are **open** to exploring ways in which fund contributors can be recognized like logo placement, participation in the event, included in the organizers team or as a host, souvenirs, other promotional opportunities, etc.

CALL TO ACTION: NEXT STEPS

Considering the invitation for joining hands with us in bringing education revolution in Bir following are the next steps:
